

Microsoft 365 Services from Vandis

Enable your Microsoft Modern Workplace through Vandis

How can Vandis help with my Microsoft 365?

Vandis has built a full-service practice to overcome the challenges organizations face when connecting, securing, and scaling their Microsoft 365 environment. Our process can enable the full productivity suite while reducing costs, consolidating billing, and providing premium support. With an emphasis on networking and security, our team can enable the full Microsoft 365 suite and integrate third party solutions into your environment. Vandis will either build your Microsoft 365 from scratch or help optimize your existing environment. Our architecture will enable easy scalability and help you simplify cost management.

After a cloud review, Vandis will customize a Microsoft 365 plan that can include cost reductions, premium support, and strengthened security posture utilizing Microsoft 365 Endpoint Mobility and Security.

Significantly Reduce Deployment Time

- Quickly enable Microsoft 365 with templated deployment
- Personalized user portal provides seamless license management that can scale with business needs

Easily Support Your Business Needs
